

**2022-23 Show Hair**

**Bun Hawk**

# MATERIALS NEEDED

- Hair Brush
- Hair Comb
- Hair Gel
- Hair Spray
- Bobby Pins (a LOT)
- *Small Rubber Bands (should match your hair color as close as possible)*
- Another Person

It is a little difficult to create a picture process to the show hair, so just follow the Youtube video in the next slide!! It isn't impossible to do this on your own, but you will most likely need another person to complete the hair look. If you find any complications doing this, let me or Celeste know, so we can fix them as we go along. Do not skip out on hair gel AND hairspray. We need to minimize the amount of flyaways as much as possible. Bobby pins are also your best friend. With the amount of movement we do in our show, your hair is bound to fall apart. With the combination of a MASS amount of bobby pins & hair gel/hairspray, our hair will last throughout our performances. We will also be making one small adjustment that differs from the video!

# PULLING OUT HAIRS

When doing the hawk bun, we will be leaving out two strands of hair right in front of ear. This shouldn't be too thick to the point where it gets in the way.

These strands are NOT the two strands that come from the front of your scalp/forehead. This will get in your face while performing and will most likely end up tucked behind your ears. Pulling out the strands by your ears will not get in your face and looks cute!! Apply gel to the root of these two strands and even bobby pins if needed to keep it in place.

**\*should look like this on both sides!!**

# THE HAIR TUTORIAL

Don't forget to  
leave out the two  
side strands!!

<https://www.youtube.com/watch?v=mvvpNSaYGSs>

**Then, you are done!**

Finish by gelling, hairspraying, and pinning back ANY flyaways. Make sure your hair is secure and not at risk of falling out at all. I'd always say to overdo it with gel, hairspray, and pins, because you never know what will happen to your hair during warmups/performance.
